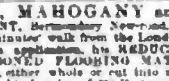
REDUCED PRICES.—EDWARD SIMMS late William Cheere, of Wilton-road, Pimlico Hasn. begs to acquaint Builders and the Trade that he has now on hand, at his Manufactory, the first of its kind ever established; a very large Assortment of Dry and Well-seasoned OAK and DEAL PREPARED FLOORING BOARDS and MATCH BOARDING of all sorts, from ¼ inch to 1¼ inch thick, planed to a parallel width and thickness, and at greatly Reduced Prices. Also, Timber, Deals, Oak Planks, Scantlings, Sash Stiles, Mouldings prepared by Machinery, Laths, &c.—Apply at E. SIMMS'S late W. Cheere's Flooring Manufactory, Wilton-road, Pimlico Basin.

T. ADAMS, MAHOGANY and TIMBER MERCHANT, Bermondsey New-road, near the Brick-layers' Arms, ten minutes' walk from the London-bridge Station, will forward, upon application, his REDUCED LIST of the PRICES for SEASONED FLOORING MATCHED BOARD, Deals, and Timber, either whole or cut into any thickness and scantling, &c. Also, his drawing of 200 Patterns of MOULDINGS, on receipt of five postage stamps.—T. A. continues to offer all the advantages as stated in his previous advertisements.

PREPARED FLOORING.—ALFRED ROSLING begs to call the attention of Builders and Consumers generally to his STOCK of BOARDS, prepared in the best possible manner, and fit for present use; their superiority to the Sour-boards generally sold being sufficiently evinced by the greatly increased demand. A. ROSLING is in a position to offer every description of Baltic and other deals imported into this country at the lowest possible price consistent with fair trading; and begs to solicit the orders of those who have not as yet favoured him, feeling assured he can offer them advantages which they will appreciate.—Southwark-bridge Wharf, Bankside.



SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, PLANKS, DEALS, and BATTENS, &c. sawn on the most approved principle; Boards, &c., prepared, matched, and grooved, by Muir's Patent Machinery. The Mills have all the advantages of navigation and water-carriage, being connected with the Thames by the Grosvenor Canal. Goods fetched from the docks, and carted home free of charge.

Address to HENRY SOUTHAM,
Saw Mills, Gillingham-street, Pimlico.
N.B. Estimates given for Sawing and Planing.

THE GENERAL WOOD-CUTTING COMPANY, TIMBER WHARF,
SAWING, PLANING, AND MOULDING MILLS,
Belvedere-road, Lambeth, near Waterloo-bridge,

are prepared to supply timber and deals, &c., cut and uncut, to any extent, at the current prices of the day. They keep a large stock of WELL-SEASONED FLOORING and MATCH BOARDS, which, being manufactured by themselves, they offer at the lowest remunerating profit. Buyers of timber, &c., from the country will find their extensive saw mills a convenience for the immediate conversion of their purchases to any purpose which may suit them.

The Company beg leave to call the attention of the trade to their NEW MOULDING LIST, the largest ever published, and to state that, in addition to the numerous patterns therein delineated, their machinery enables them to execute every description of moulding, from drawings, &c., with an accuracy and despatch which must insure satisfaction.

The moulding list, containing nearly 200 diagrams, with prices attached, may be had at the mills, or shall be forwarded on receipt of six postage stamps (the amount of the postage thereon).

N.B.—The Company (without previous preparation) manufactured and delivered to the Great Exhibition fifty statute miles of mesh bars within ten days after receiving Messrs. Fox, Henderson, and Co.'s order, which these gentlemen have certified, and that the work was executed to their entire satisfaction.

WINDOW BLINDS.—TYLOR and PACE, Window Blind Manufacturers, 313, Oxford-street, adjoining Hanover-square, and 3, Queen-street, Cheapside, London, submit the following PRICES of WINDOW BLINDS, which they can recommend as being made in the best manner:—Venetian blinds, per square foot, 8d.; best holland blinds, on rollers, 6d.; best ditto on spring rollers, 8d.; gauze wire blinds, in mahogany frames, 1s. 1od.; perforated zinc blinds, in ditto, 1s. 6d.; outside blinds of striped cloth in cases, 1s. 6d. Transparent blinds in great variety. Engraving, with prices and discounts to builders and the trade, forwarded on application, post free.

TARPAULINS FOR COVERING ROOFS during Repairs, SCAFFOLD CORD and every description of ROPE used by Builders upon the lowest terms. Marquees and temporary Awnings on sale or hire. Orders per post receive the most prompt attention.—WILLIAM PIGGOTT, 113, Fore-street, City, Manufacturer, by appointment, to her Majesty's Honourable Board of Ordnance.

SATINS, FLOCK, GOLD, MARBLE, OAK, GRANITE,

Elegant Borders and Fittings for Decoration, equally low

LINING PAPER AT MILL PRICES.

Builders and the Trade, Country Dealers, and Exporters, will find the Largest Manufactured Stock at the LOWEST PRICE in the Kingdom, at

L. WARNE and CO.'s, Manufacturers and Importers, 2, Grosvenor-street, and 31, Fenchurch-street, Long-acre, and Consignees of the principal Parisian Manufacturers. Established 1830

PAPERHANGINGS.—REDKISON'S new Spring Patterns, at reduced prices. Bed-room, hall, and staircase papers, from 3d. to 9d. per piece; dining-room and parlour papers, from 9d. to 1s. 8d. per piece; satin drawing-room paper from 2s. 6d. to 3s. 6d. per piece, for each only. Patterns sent all parts of the kingdom for approval, on receipt of four postage stamps.—W. REDKISON, Manufacturer, 43, Fenchurch-street, London (late W. H. Rippel). Merchants trading to the Colonies supplied on the most liberal terms.

TO THE ARCHITECTURAL PROFESSION, BUILDERS, AND THE PUBLIC.

BUNNETT AND CO. ENGINEERS, FOUNDERS, &c.

26, LOMBARD-STREET, LONDON, AND DEPTFORD, KENT,

ORIGINAL PATENTEES OF REVOLVING IRON SAFETY SHUTTERS,

AND OF THE

NEW PATENT CURVILINEAR REVOLVING IRON SHUTTER,

FOR WHICH THE PRIZE MEDAL OF THE GREAT EXHIBITION WAS AWARDED.

ALSO

PATENTEES AND MANUFACTURERS OF METALLIC SASH-BARS AND MOULDINGS, &c.

In deference to the opinion of several architects and builders of eminence, and in justice to themselves and the public, B. and Co. feel it incumbent on them to notice the unfounded statements and pretensions put forth in advertisements, and to caution parties requiring any of their well-known works against being induced by the unscrupulous piracy of their drawings and patterns, and their general terms of description, to adopt defective imitations.

First. As to the assertion that the Convex Shutter is twelve times stronger than any other form, it is only necessary to state, that Mr. Bunnett, about eighteen months since, became the Licensee of Mr. Harcourt Quincey's Patent Convex Shutter (as manufactured by Messrs. Clark and Co.), for the sole purpose of enabling him to patent and introduce a great improvement on the same without litigation, which his great practical experience, and the introduction of new and improved machinery, has enabled him to effect in the

"NEW PATENT CURVILINEAR REVOLVING IRON SHUTTER,"

which is unquestionably much stronger and stiffer than the "CONVEX SHUTTER," under any test, and at least twice as strong and durable in the mode of connecting the laths.

Secondly. The machinery for working Bunnett and Co.'s Shutters is greatly superior in principle, material, and workmanship; the necessary working parts being of Gun Metal, to insure smoothness and durability, and they respectfully solicit comparison to prove that the CURVILINEAR IRON SHUTTER is also far preferable to the Convex or any other Shutter, in appearance, facility of application, and ease and safety in working, as was evinced by the award of the PRIZE MEDAL by the Jurors of Class 7, in the Great Exhibition of 1851, where (although Messrs. Clark and Co. modestly advertise that they did not exhibit), adjoining Bunnett and Co.'s Curvilinear Shutter was a Convex Shutter, No. 146 in catalogue, exhibited by Mr. Harcourt Quincey, as the patentee, but with Messrs. Clark and Co.'s name and address at large as the manufacturers.

The sheet of patterns of Brass Sash Bars published in THE BUILDER of Feb. 28 by Messrs. Clark and Co. "as selected from their numerous patterns," are, with the exception (No. 138), either tracings from, or badly drawn copies of, Bunnett and Co.'s original and well known patterns, published in their specimen sheet some years since.

BUNNETT and CO. consider testimonials are in their case unnecessary, as they can confidently refer to nine-tenths of the principal alterations and improvements in their branch of business, which have been executed by them within these last few years.

The testimonials published by Messrs. Clark and Co. not being founded on facts, are calculated to mislead. BUNNETT and CO. beg to state that they have frequently fixed shutters much larger than Mr. Dunn's, some of nearly twice the size, amongst others, for Messrs. Jeffery, Morrish, and Co. Liverpool, are shutters put up in 1844, 26 feet in height, which are now in perfect order and working much better than Mr. Dunn's ever did.

In Messrs. Rogers and Duer's testimonial there is probably some mistake. Any one requiring iron shutters cannot do better than make a personal inquiry of the occupants of the shops named by them, where they will learn that they have suffered the greatest inconvenience and annoyance from the imperfections in the shutters mentioned in the testimonial of Messrs. R. and D. and all of them recommend BUNNETT and CO.'S shutters as far the best.

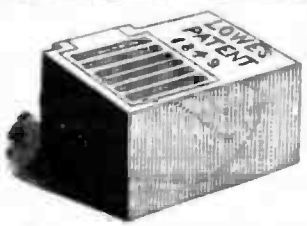
BUNNETT and CO respectfully caution the public against the statements industriously put forth "that their prices are much higher than others;" they assure their numerous friends and patrons, that while they are determined to maintain the superior quality of their works, they are enabled by their present arrangements effectually to compete in price with any other manufacturer.

BUNNETT AND CO. ARE ALSO PATENTEES AND MANUFACTURERS OF

SELF-ACTING DOUBLY-TRAPPED WATER-CLOSETS, for which the Prize Medal of the Great Exhibition was awarded.

SELF-ACTING EFFLUVIA TRAPS FOR SEWERS AND DRAINS; IMPROVED PATENT GLASS LOUVRE AND SLIDE VENTILATORS; VENTILATING FIRE-PROOF IRON DOORS; BUILDERS' IMPROVED BENCH AND FLOORING CRAMPS, &c.; STEAM ENGINES AND MACHINERY OF ALL KINDS.

SANITARY IMPROVEMENTS.



LOWE'S PATENT

EFFLUVIA-TRAP SEWER GRATINGS;

OR, STENCH-TRAP GRIDS,

FOR PUBLIC SEWERS, AND DRAINS IN HOUSES, WORKS, YARDS, GARDENS, COURTS PASSAGES, CELLARS, AND SINK STONES

Patronised and used at the Model Cottages, in Hyde-Park, erected by H.R.H. Prince Albert, under the superintendence of the "Society for Improving the Condition of the Labouring Classes," and the "Metropolitan sanitary society," and by the Corporations and Local Boards of Health in London and the principal Cities and Towns in the Kingdom, and "Honourably Mentioned" by the Jury in Civil Engineering, Class 7, No. 62, Great Exhibition.

The Patent Effluvia Trap Gratings are applicable to all sizes of Street Sewers, and the Drainage in Houses, Works, Public Hospitals and Institutions, Yards, Passages, Garden and Gravel Walks, Cellars, and Sink Stones, and also to the Sewerage in Turnpike Roads, Railways, and other places, by effectually preventing the noxious effluvia arising therefrom escaping to the surface, and thereby polluting the atmosphere.

The advantages of the Effluvia-Trap Sewer Gratings over the Bell, Syphon, Flap, or Drop-Traps, consist in their containing, in a simple, cheap, and compact form, a Sewer or Sough Grating, an Effluvia-Trap, a Sediment-Trap, and a Vermin-Trap, all together.

The simplicity of their construction, their general applicability, the ease with which they are examined and cleansed, their solidity of form, durability, perfect efficiency and cheapness, recommend them to the notice of Corporations, Architects, Surveyors, Builders, Contractors, the Trustees of Public Hospitals and Institutions, and all persons interested in the sanitary improvement of Towns, and to the occupiers of all Houses where the Drainage is connected with the Main Sewers.

Upwards of twenty-five thousand of the Patent Grids are now in use by the Corporations, Surveyors, Commissioners of Sewers, or Local Boards of Health, in London and the principal Cities and Towns in the Kingdom.

A. LOWE & CO. Patentees.

Salford, Manchester, February 18th, 1854.

LICENSED MAKERS:

LONDON	Messrs. R. W. KENNARD and CO. Upper Thames-street.
